About the Connecticut Airport Authority:

The Connecticut Airport Authority was established in July 2011 to develop, improve and operate Bradley International Airport and the state's five general aviation airports (Danielson, Groton-New London, Hartford-Brainard, Waterbury-Oxford, and Windham airports). The board consists of 11 members with a broad spectrum of experience in aviation-related and other industries as well as government. The goal of the CAA is to make the CAA's airports more attractive to new routes, new commerce, and new companies who may be considering making Connecticut their home.
