

AIRPORT ALTERATION OR EXTENSION APPLICATION

Instructions

Per Conn. Regs. § 15-41-19 and Conn. Regs. § 15-41-20, applicants requesting approval for any alteration or extension of any existing licensed airport must complete all items and certification on this form and must attach any relevant documents outlining the scope of work, maps, and and/or renderings. "Alteration" or "extension" shall include any of the following: (1) Any material change in length, width, direction or surface of runways or landing strips; (2) construction or installation of any building or other obstruction within one hundred fifty feet of the longitudinal center line of a landing strip; (3) planting or permitting any natural growth or placement of any other obstacle on the property subject to control by the airport, which would extend above any approach slope, transition slope or turning zone; (4) any change in location of the lighting facilities; (5) any change in the listed facilities of a commercial airport. Application for alteration or extension of an existing airport shall be filed no less than sixty (60) days prior to any anticipated notice to proceed.
